

Opioid Assessment Services

Teledigm Health, in partnership with Bryan Telemedicine, sets the industry standard in telemedicine, providing a deep bench of clinical staffing resources and technical support with a focus on innovation and sustainability.

Caring for Patients on the Journey to Recovery

- Affordable, compassionate care from staff trained in the assessment and treatment of opioid addiction
- Services include:
 - Opioid misuse assessment for bedded patients, emergency department patients or clinic patients
 - Stimulant misuse assessment
 - Referral to appropriate level of care: inpatient detox, residential treatment, partial care, intensive outpatient treatment or outpatient care
 - Referral to pain management provider for treatment of chronic pain
- Personable, quality care that puts staff and patients at ease
- Treat more patients locally – Referrals to local resources where they are available and appropriate
- Bring trusted intervention nurse care and assessment to your community
- Access to board certified physicians specializing in Medication Assisted Therapy

Hospital Challenges

- Identifying treatment options for patients struggling with opioid misuse and addiction
- Limited addiction resource options in rural areas
- Managing patients with chronic pain or long-term opioid use
- Estimated 150 people die every day from opioid-related drug overdose

We're with you every step of the way, partnering for the future

Teledigm Health and Bryan Telemedicine offer the region's most trusted medical partners to provide telemedicine, inpatient and specialty consultations as well as specialized medical support services.
