

Stroke & Neurology

Teledigm Health, in partnership with Bryan Telemedicine, sets the industry standard in telemedicine, providing a deep bench of clinical staffing resources and technical support with a focus on innovation and sustainability.

Partnering to Care for Patients When Time Matters Most

- Bring 24/7 affordable, convenient and trusted neurology and stroke care to your hospital
- Provides rapid access to board certified experts in stroke and neurology care in the Emergency Department or inpatient units
- Strong focus on working with your doctors and staff to provide continuity of care throughout the acute neurological episode
- Personable, high-quality care that puts patients, family members and staff at ease and supports your medical staff while improving retention, reducing turnover and enhancing quality of life
- Expand the scope of care you offer and keep more patients in your community
- Neurology team will round on the patients once admitted to the facility
- Enjoy an increase in confidence that local providers and nursing have in taking care of stroke and neurology patients
- Workflow development including protocols and order sets based on best practice as well as assisting with stroke certification if desired
- Ongoing medical staff engagement and meetings
- Various program options and coverage options
- Outpatient Neurology Program and EEG reading available

Hospital Challenges

- 24/7 immediate access for patients experiencing acute neurological incidents
- Physician burnout and work/life balance
- Limiting outmigration of patients

Stroke Facts

- #4 cause of death in the United States
- #1 cause of disability in the United States
- 70% of patients receiving TPA for stroke do not qualify for intervention and can be cared for at the hospital where TPA was received

We're with you every step of the way, partnering for the future

Teledigm Health and Bryan Telemedicine offer the region's most trusted medical partners to provide telemedicine, inpatient and specialty consultations as well as specialized medical support services.

As you explore ways to enhance care to your community, we are here to work with you offering:

- Evidence-based, best practice medical consultations and care
- Personable, patient focused physicians and health care professionals to provide the best possible communication, trust and care
- Flexibility to fit your needs
- Secure, HIPAA compliant, easy-to-use and reliable video/audio telemedicine equipment
- Cost effective solutions for physician coverage and service expansion opportunities
