

Acute Psychiatry

Teledigm Health, in partnership with Bryan Telemedicine, sets the industry standard in telemedicine, providing a deep bench of clinical staffing resources and technical support with a focus on innovation and sustainability.

Specialized Support for Patients with Acute Psychiatric Needs

- Affordable and convenient care by licensed psychiatrists for your community
- Services include:
 - Emergency department and inpatient assessments
 - Real-time face-to-face treatment via secure two-way audio/video interaction
 - Specialized expert psychiatric support for attending providers
- Personable, compassionate providers that put staff, patients and families at ease
- Reduce emergency department or inpatient stays
- Expand the scope of care you offer and keep more patients in your community
- Support existing medical staff and improve retention
- Various program options and coverage options to meet the needs of any facility

Hospital Challenges

- Over 50% of counties in the United States have no behavioral health providers
- Local provider expertise with acute mental health issues
- Provider liability concerns
- Provider burnout and work/life balance
- Limiting outmigration of patients

Care for Acute Psychiatric Needs

62% of Americans suffering from mental illness do not receive treatment.
