

Intervention Nurse Program

Teledigm Health, in partnership with Bryan Telemedicine, sets the industry standard in telemedicine, providing a deep bench of clinical staffing resources and technical support with a focus on innovation and sustainability.

Caring for Patients on the Journey to Recovery

- Trusted intervention nurse care and assessment for your community
- Compassionate care from staff trained in the assessment and treatment of substance use concerns
- Services include:
 - Evaluation, education and referrals for substance use issues for bedded patients and emergency department patients
 - Obtaining complete drug and alcohol history and making recommendations for appropriate care level
 - Referrals to pain management provider for treatment of chronic pain issues
- Personable, quality care that puts staff and patients at ease
- Referrals to local counseling resources where available and appropriate
- Provides educational information to staff members regarding substance use and detox issues

Hospital Challenges

- Identifying treatment options for patients struggling with opioid misuse and addiction
- Limited addiction resource options in rural areas
- Managing patients with chronic pain or long-term opioid use
- Estimated 150 people die every day from opioid-related drug overdose

Substance Abuse Crisis

Overdose deaths increased 50% during the COVID-19 pandemic.

We're with you every step of the way, partnering for the future
