

Outpatient Health Psychology

Teledigm Health, in partnership with Bryan Telemedicine, sets the industry standard in telemedicine, providing a deep bench of clinical staffing resources and technical support with a focus on innovation and sustainability.

Outpatient Support Assisting Patients with Health Goals

- Affordable and convenient care by mental health providers trained in motivational interviewing techniques
- Health psychologists educate patients on making healthful choices even in the face of psychological stress
- Health psychologists develop health care strategies that foster patient's emotional and physical well-being.
- Real-time face-to-face counseling via secure two-way audio/video interaction
- Personable, compassionate providers that put staff and patients at ease
- Providers work closely with your medical staff to provide consultative care when you need it
- Expand the scope of care you offer and keep more patients in your community

Hospital Challenges

- Over 50% of counties in the United States have no behavioral health providers
- Local provider expertise with mental health issues
- Lost ancillary revenue from outmigration
- Limiting outmigration of patients

Care for Patient Health Needs

Health psychology leverages psychological frameworks and understanding to improve patients' health.

We're with you every step of the way, partnering for the future

Teledigm Health and Bryan Telemedicine offer the region's most trusted medical partners to provide telemedicine, inpatient and specialty consultations as well as specialized medical support services.
