

# Outpatient Oncology

Teledigm Health, in partnership with Bryan Telemedicine, sets the industry standard in telemedicine, providing a deep bench of clinical staffing resources and technical support with a focus on innovation and sustainability.

## Outpatient Support for Patients Cancer Care Needs

- Affordable, patient centered, convenient care by board certified oncology health care providers for your community
- Medical oncology, genetic counseling and nutrition services are available to patients
- Provide a team approach to cancer care for your patients
- Personable, compassionate providers that put staff and patients at ease
- Providers work closely with your medical staff to provide consultive care when you need it
- Reduce travel requirements for patients needing specialty care
- Expand the scope of care you offer and keep more patients in your community

## Hospital Challenges

- Cancer death rates are higher in rural areas than in urban areas
- Local provider expertise with cancer related health issues
- Lost ancillary revenue from outmigration
- Limiting outmigration of patients

### Care for Patient Oncology Needs

Rural residents have lower rates of cancer screening and often experience lower quality cancer care.

# We're with you every step of the way, partnering for the future

Teledigm Health and Bryan Telemedicine offer the region's most trusted medical partners to provide telemedicine, inpatient and specialty consultations as well as specialized medical support services.
