

Outpatient Neurology

Teledigm Health, in partnership with Bryan Telemedicine, sets the industry standard in telemedicine, providing a deep bench of clinical staffing resources and technical support with a focus on innovation and sustainability.

Partnering to Care for Patients With Neurological Concerns

- Access to board certified experts in stroke and neurology care for your community
- Bring affordable and trusted care to your hospital; expand the scope of care you offer and keep more patients in your community
- Retain ancillary revenue previously lost to outmigration
- Neurologists work closely with local providers and staff
- Personable, high-quality providers that put patients, families and staff at ease
- Outpatient specialist clinics allow providers to diagnose patients using sophisticated telemedicine technology located in your community hospital or clinic
- Flexible clinic scheduling options include partial day, half day, full day or on demand scheduling

Hospital Challenges

- Access for patients needing expert neurology care
- Local provider neurology expertise
- Lost ancillary revenue from outmigration
- Limiting outmigration of patients

Stroke Facts

- #4 cause of death in the United States
- #1 cause of disability in the United States
- 1 in 5 women between the ages of 55 and 75 will have a stroke
- 4 in 5 strokes are preventable

Rural Patient Risk of Stroke Death

Stroke death rates have increased among middle-aged adults in rural counties in the U.S.

We're with you every step of the way, partnering for the future

Teledigm Health and Bryan Telemedicine offer the region's most trusted medical partners to provide telemedicine, inpatient and specialty consultations as well as specialized medical support services.

As you explore ways to enhance care to your community, we are here to work with you offering:

- Evidence-based, best practice medical consultations and care
- Personable, patient focused physicians and health care professionals to provide the best possible communication, trust and care
- Flexibility to fit your needs
- Secure, HIPAA compliant, reliable and easy-to-use video/audio telemedicine equipment
- Cost effective solutions for physician coverage and service expansion opportunities
