

Acute Nephrology

Support for Local Providers and Nursing Staff

Timely, in-depth nephrology care from a team of board certified nephrologists available 7 days/week. Consults and follow-up management available for all aspects of kidney disease.

Physician, Nursing, and Patient Satisfaction

Patients and families benefit from staying close to home and local support resources. Care is provided for the initial encounter and rounding for follow-up to ensure continuity.

Expert Care. Close to Home.

Bottom Line Improvement

Transferring fewer patients allows hospitals to retain both inpatient and ancillary revenue opportunities otherwise lost to transfers. Acute services have been shown to retain a high percentage of patients in their local hospital, including critical access hospitals.

Solution Spotlight

-  Flexible solutions and program options are available for hospitals of all sizes
-  Workflow development including protocols and order sets based on best practices
-  Telemedicine technology allows providers to assess, diagnose and manage patient care
