

# Hospitalist Care Program

## Support for Local Providers and Nursing Staff

Telemedicine support options from hospitalists with rural health care experience helps local providers and nursing staff feel more comfortable keeping higher acuity patients in-house

## Physician and Patient Satisfaction

Personable, high quality care from providers who put local providers, staff and patients at ease

## Expert Care. Close to Home.

## Bottom Line Improvement

Transferring fewer patients allows hospitals to retain both inpatient and ancillary revenue opportunities otherwise lost to outmigration

## Solution Spotlight

Flexible coverage options include hospitalist consultation and completion of admissions including cross cover care for inpatients or telemedicine physician hospitalist oversight of on-site advanced practice clinicians. Solutions are available for hospitals of all sizes.

Telemedicine technology allows hospitalist providers to assess, diagnose and manage patient care.

Hospitalist care provided in collaboration with local medical and nursing staff

Documentation and order entry in the local medical record

Medical staff work/life balance concerns addressed

“The hospitalist program has been remarkable. We are very pleased with the quality...”
